- Digitalization

Broad Overview - Policy

- UN Sustainable Development Goals – SDGs
- Agenda 2023
- African Mining Vision of 2009 – mainly centered on ASM
- Country Policies
- Company Strategic Direction
- AMMZ - operationalize

Mine Manager – Gap Analysis

- Is the Mine Manager well informed
- Is the Mine Manager up to speed with changes in technology, working models, legal matters, commodity prices
- Which areas are topical currently
- Which sources provide the Mine Manager with information
- Does the Mine Manager have exposure – other mines, other systems, global arenas

Value Proposition - Why should stakeholders partner AMMZ

- Why individuals, businesses and organizations must partner the AMMZ
- We have chosen to take the future of mining into our own hands
- We are the foot soldiers who operationalize the strategic vision of Policy Makers – both public and private
- We are the direct consumers of Products and Services that different industries produce – technology, human capital, financial
- We are setting our 2/3 year vision with a Product Based Approach – what type of Mine Manager, Policy Maker, Supplier, Service Provider, Student, Lecturer do we want to see ?
- We want all those involved in mining value chain – to have access to information, access to technology, access to markets, access to human capital
- A lot of the good work we do goes unrecorded – we want all our members and partners to find permanent home for their work.

What to look for in 2021

- Staying updated through our Social and Professional Platforms – twitter, LinkedIn, Facebook
- Our website is under construction – value for your subscription
- Mine Managers quarterly magazine
- Half marathon and golf day
- Caribbea Bay Hybrid 2021 Conference – Physical and Virtual. Book now, limited places
- Technical visits
- This is because I'm a member of AMMZ, affiliate to Chamber, Interim member of UZ Alumni, Incoming Chairman of ZSM Academic Committee. As such I find enthusiasm to participate in Mining related business
- Increased membership
